Sprint meeting 1

Meeting date: 17th October 2025

Supervisor: Haoyi Wang

Progress:

- First sprint meeting, some initial research done but no proper progress on project yet

Suggestions/questions from supervisor

- Questions were asked about the project initiation,as this was the most pressing task that needed to be completed, some guidance was given on the matter
- Discussion about more details of my project occurred for a better understanding of what I am to develop
- Overall not a lot to discuss at this stage yet,as the project is just starting up

Going forward

- The first part of this sprint will be focused on the project initiation document. This is due in the first week of the sprint so will be focused on first. It will have project keywords, LESP considerations, Gantt chart, project vision and risk plan all included
- After that is completed, a set of research will be done for the project. This will include asset research/ collection, game engine research to determine what engine is the best choice, and with that decided different key functionalities will be researched to outline and plan how they could be implemented
