

Sprint 4

Meeting date: Thursday 27th November 2025

Supervisor: Haoyi Wang

Progress:

- Buildings can now be placed
- Some UI elements are now present, including buttons to bring up menu for buildings
- Buildings menu active and working, allowing for buildings to be selected
-

Going forward

- At some point. The road system will be updated to be dynamic so that roads will automatically join up together
- Save features will begin getting developed to encapsulate a more proper game experience
- Along with starting game saves, generating a few starting buildings upon game creation will be worked on
